01. What legislation, guidance and/or policies govern a workplace investigation?

There is no specific law governing workplace investigations in Brazil, but Law 14.457/2022 states that companies must have rules that relate to sexual and other forms of harassment in their internal policies, address the rules for receiving and processing accusations, assess the facts, and discipline any individuals directly and indirectly involved in acts of sexual harassment or violence.

If the investigation has any connection with anticorruption matters, the investigation procedure must comply with Law 12846/2013 (Brazilian Anticorruption Act) and Decree 8420/2015.

As a result, Brazilian employers usually follow the rules determined by internal corporate policies, which often result from international regulations and principles that differ from the Brazilian ones, which inadvertently expose the Brazilian subsidiary to liability. The answers below will highlight common examples of this, when appropriate.

There is no specific legal regulation for internal investigations in Switzerland. The legal framework is derived from general rules such as the employer's duty of care, the employee's duty of loyalty and the employee's data protection rights. Depending on the context of the investigation, additional legal provisions may apply; for instance, additional provisions of the Swiss Federal Act on Data Protection or the Swiss Criminal Code.

In the United States, any combination of legislation at the federal, state and local level, as well as judicial opinions and regulatory guidance interpreting those statutes, may impose obligations on relevant employers to undertake a timely internal investigation in response to complaints of workplace misconduct and to promptly implement remedial measures, where appropriate.

An employer's written policies often also set forth the company's expectations for how its employees, partners, vendors, consultants or other third parties will conduct themselves in carrying out the business of the company, and these policies may include protocols setting forth the parameters for an investigation in the event of potential non-compliance. Such investigatory roadmaps are often described in, for example, employee handbooks or a company's policy against discrimination and harassment.

Due to the patchwork nature of employment and related laws, it is not possible to cover every investigation scenario or related legislation in this guide. Employers should instead consult with experienced employment attorneys in their state to ensure compliance with the applicable legal and regulatory regimes.
