05. Do any categories of employee have enhanced responsibilities under the applicable regulatory regime?

Belgium

Author: *Nicolas Simon*
at Van Olmen & Wynant

Specifically, employees holding executive, overall management, oversight or control functions in regulated companies are responsible for ensuring that the companies' organization ensures the continued compliance with applicable financial market laws. Swiss financial market laws do not have enhanced responsibilities for different employee categories. Instead, a person's fitness and propriety are assessed within the context of the specific requirements and functions of a given company, the scope of activities at that company, and the complexity of that company.

Responsibility differs based on the complexity and responsibility of the tasks assigned to the employee and defined by the employer. However, all companies in the sector must comply with financial market institutions, which may imply that employees have a responsibility towards different entities. We summarise the institutions of the Brazilian financial market as follows:

The Securities and Exchange Commission (CVM)

This was created to monitor, regulate, discipline, and develop the Brazilian securities market. It is responsible for creating rules for the market and supervising its functioning. The CVM is part of the government and is linked to the Treasury Department, but it has administrative independence.

The Brazilian National Central Bank

This is a federal agency linked to the Treasury Department but with administrative independence, which aims to guarantee the stability of the currency's purchasing power and maintain a solid and efficient financial system. It controls monetary, exchange rate, credit, and financial relations policies abroad, in addition to regulating the National Financial System. The national central bank also supervises financial market institutions.

B3 (Stock Exchange)

This was created in 2017 from the merger of BM&FBOVESPA and Cetip, two crucial financial market players. The new company began accumulating services that serve the market and its investors for fixed and variable income transactions, among other duties.

The Credit Guarantee Fund

This is a non-profit civil association that aims to provide credit guarantees to customers of institutions participating in the fund.

The Private Insurance Superintendence

This controls and supervises the insurance, open private pension, capitalisation, and reinsurance markets.

The Brazilian Association of Financial and Capital Market Entities (ANBIMA)

This has represented the market for over four decades and is responsible for more than 300 institutions. The entity's activities are organised around four commitments: represent, self-regulate, inform and educate. Its main objective is to strengthen the sector's representation and support the evolution of a capital market capable of financing local economic and social development and influencing the global market.
