##### **SFC**

The “Guidelines on Competence” published by the SFC lists the necessary qualifications for employees carrying on regulated activities. For academic qualifications, employees should attain at least Level 2 in either English or Chinese as well as in Mathematics in the Hong Kong Diploma of Secondary Education or equivalent. In addition, employees are expected to obtain recognised industry qualifications and pass the local regulatory framework paper. For responsible officers (ROs), the SFC requires higher levels of educational qualifications and experience.

##### **IA**

The “Guideline on ‘Fit and Proper’ Criteria for Licensed Insurance Intermediaries Under the Insurance Ordinance” published by the IA sets out the education requirements for licenced employees under the IO. Higher levels of educational qualifications are required for responsible officers.

Depending on the status of the employing entity and the position of the financial services employee, a special certification or, more generally, proof of relevant work experience and sufficient education is required.

As a general rule, persons holding executive, overall management, oversight or control functions (eg, a member of the board, CEO, compliance officer, risk officer or their deputies) in regulated companies such as banks, insurance companies, securities firms, fund management companies, managers of collective assets or asset managers are required to demonstrate to FINMA that they have sufficient relevant work experience and education. As proof, FINMA requests current CVs, diplomas, certifications and contact details of references. The scope and nature of the future business activity and the size and complexity of the company in question also need to be considered.

Furthermore, client advisers of so-called financial service providers (eg, investment advisers) must have sufficient expertise on the code of conduct and the necessary expertise required to perform their work. Client advisors often prove that these requirements have been met by successfully attending special courses. In addition, insurance intermediaries registered with FINMA's insurance intermediary register have to prove that they have undergone sufficient education and have sufficient qualifications. For this purpose, FINMA has published a list of different Swiss and foreign educational qualifications deemed to be sufficient on its website.

## 05. Do any categories of employee have enhanced responsibilities under the applicable regulatory regime?

### Hong Kong

Author: *Charles Mo, Joanne Mok*  
at Morgan Lewis & Bockius

Under the SFO, ROs have enhanced responsibilities. They assume primary responsibility for compliance at a licensed corporation and are involved in supervising the regulated activities. A licensed corporation is required to appoint no less than two ROs to directly supervise the conduct of each regulated activity. Similarly, under the BO, registered institutions are required to appoint no less than two executive officers to be responsible for directly supervising the conduct of each regulated activity under the SFO. For each regulated activity, at least one RO must be available at all times to supervise the business and must be an executive director.

Under the IO, an RO of a licensed insurance agency or licensed insurance broker company has enhanced responsibilities. Responsible officers must use their best endeavours to ensure the agency or broker has established and maintains proper controls and procedures for securing compliance with the conduct requirements under the IO.

Specifically, employees holding executive, overall management, oversight or control functions in regulated companies are responsible for ensuring that the companies' organization ensures the continued compliance with applicable financial market laws. Swiss financial market laws do not have enhanced responsibilities for different employee categories. Instead, a person's fitness and propriety are assessed

within the context of the specific requirements and functions of a given company, the scope of activities at that company, and the complexity of that company.
